

CHALLENGE:

SEED PACKET DESIGN

Seeking informative and designer packaging to showcase New Zealand native plants!

What have you learnt about this plant?
What information could you share with others? What are the interesting details about this New Zealand taonga?

WHAT TO DO

Design the inside of a seed packet for the Southland Community Nursery. Think about what you would want to know about this plant: what this plant or part of plant looks like? (a drawing and/or pictures are good), what is special about this plant? Include its name/s.

Create your seed packet design, and show us at the Southland Community Nursery. We will hopefully have some seeds that will need to be packaged.
