Booking essential - contact – Honorlea 0211611204 or email kakarikinaturalbeauty@gmail.com

Hello my name is Honorlea.....

I have been living in NZ for 5 nearly 6 years learning about the plants we have around us, the Native ones and recognising plenty of useful weeds also. I have a background in Horticulture, Forestry and Non-timber Forest Products and previously lived in Darwin Australia, working in Aboriginal Communities with Women from all over the Northern Territory for over 10 years, supporting them in their business ideas based on Land Management practices. Assisting people to develop Body products and Bush medicines and having the privilege of learning about the importance of our natural environment and how plants can benefit us in so many ways as well as learning about the ones to stay away from.

I ran my own business in the Northern Territory making Soap from Crocodile oils which was especially popular with tourists. I am enthusiastic about making my own cosmetics and keen to share my knowledge with others of how easy it is to make simple products for yourself.

Honorlea Massarella Mangion : Diploma as Cosmetic Formulation Chemist (Dip Cos Chem)

Come along and have some fun making your own beautiful natural body products, all you need to bring is some lunch to share with others, everything else is provided on the day!
