

The closer you look the more you find! – Chris Rance

All these fungi except one were found in Otatara – Can you name them and pick the one not found in Otatara (clue - it happens to be on a \$50 note!). The Southland Community Nursery will give away 20 native plants to the person who names the most – email

rances@southlandcommunitynursery.org.nz by 10 September 2021 – the answers will be put onto the News and Events section of the Community Nursery website on that date
